

1

- Emphasize the importance of resilience
- Understand the role of strengths
- Identify your strengths
- Focus on what you can control

2

- When we are facing high levels of uncertainty and change, it can feel overwhelming.
- Chronic stress can rewire the brain to think in a more negative way; shifting our perception of ourselves and the world.
- All this can make us feel more powerless and less positive.
- By knowing our strengths and drawing on these during difficult times, we can feel more empowered and resilient.

3

WHAT IS RESILIENCE?

- The ability to bounce back in the face of adversity
- Remembering this too shall pass
- Holding the negative and positive side by side
- Built by positive emotions
- An attitude
- A muscle that we can build
- Can be a way of life

4

WHAT ARE STRENGTHS?

- Tasks or actions that you can do well
- Include talents, knowledge, skills, and personality traits
- People use these traits and abilities in their daily lives to complete work, relate with others, and to achieve goals
- Everybody has them
- **Not everybody knows them**

5

WHAT ARE YOUR STRENGTHS?

Take a pen and paper and complete the sentence.
Remember, strengths are not only things you are good at, but also things that are good about you.

YOUR CURRENT CHALLENGES

Think about a recent challenge you have faced.

- **What aspects are out of your control?**
 - How can you develop a plan to not be reactive to these?
- **What aspects are in your control?**
 - How can you develop a plan to be proactive and influence these in a positive way?

16

HOW DO PEOPLE EXPLAIN BAD EVENTS?

Three dimensions that constitute vulnerability to bad events.

1. Is it temporary or permanent?
2. Is it pervasive or localized?
3. Is it controllable or uncontrollable?

Pessimists: permanent, pervasive, personal, uncontrollable
 Optimists: temporary, local, not personal, controllable

17

CONCLUSION

For strengthening your resilience muscle,
 know your strengths and
 focus on what you can control.
